

Choosing European Culture Studies

European Studies are intended to shed light on the widest possible range of topics: from politics to language; from demography to the environment and cultural heritage.

Europeans uphold values – like democracy, the rule of law, tolerance and respect – that have evolved over hundreds and thousands of years on the European continent.

Europeans, all the way from Spain to Poland, and from Sweden to Malta, share common traits in their respective cultures and heritage.

Students interested in current affairs and issues such as emigration, tourism, art, the Brexit, the European Union, the EURO-€ and much more, will find European Culture Studies to their liking.

This 2019-2020 academic year, the European Culture students will have the objective to

- **To create and maintain a website page dedicated to European culture works and activities of the class**
- **To publish an introductory manual to the Europe** for the primary school students at QISS.
